

The genesis of **Cumitechs** was the recognition that there is much uncertainty as to suitable or optimal procedures for clinical microbiological procedures, particularly in the smaller laboratories. Of those presently in use, many are inappropriate or out of date, and the needed guidance is, in general, not

available in existing texts or manuals. To counteract this situation, it was considered expedient to make available authoritative, brief, and practical descriptive pamphlets on a variety

cumitechs

(Cumulative Techniques
and Procedures in Clinical Microbiology)

Chairman, Editorial Board, ASM Cumitechs: John C. Sherris

of technical and procedural topics which represent the consensus of experts from different centers, and which can be quickly replaced as they become outdated. Currently, the following five **Cumitechs** are available:

- CUMITECH 5 Practical Anaerobic Bacteriology**
- CUMITECH 4 Laboratory Diagnosis of Gonorrhea**
- CUMITECH 3 Practical Quality Control Procedures for the Clinical Laboratory**
- CUMITECH 2 Laboratory Diagnosis of Urinary Tract Infections**
- CUMITECH 1 Blood Cultures**

Ordering Information: CUMITECHS are available at \$3.00 each. Payment for single copies must accompany order. Standing orders are welcome, and, if you would like to receive a copy of every CUMITECH as published, you will be billed annually for the number of CUMITECHS (at \$3.00 each) which you have received during the year. Published irregularly, CUMITECHS normally number two to six a year. Quantity discounts: 11-50 copies of the same CUMITECH @ \$2.25 each; 51-100 @ \$1.50; 101-250 @ \$1.00; 251 and over @ \$0.75.

Attractive 3-Ring Vinyl Binder for CUMITECHS: \$5.00 each.

Announcing publication
of **the** indispensable
laboratory manual—

MANUAL OF CLINICAL IMMUNOLOGY

Edited by **Noel R. Rose and
Herman Friedman**

A joint effort by members of the American Society for Microbiology
and the American Association of Immunologists

This definitive and much needed new book is a companion volume to the highly acclaimed *Manual of Clinical Microbiology*, 2nd Edition. It has been written to provide a current, comprehensive, and definitive source of information about the best methods for conducting specific immunological tests in laboratory immunology. It will be invaluable for:

laboratory directors and technologists responsible for the performance of immunological tests in the clinical laboratory graduate students medical students medical technology students post-doctoral trainees residents fellows clinicians.

In addition, it will be an essential addition to the working library of every clinical chemistry laboratory, blood bank, and hematology laboratory. It also belongs in laboratories involved in the diagnosis of autoimmune and collagen diseases, surgical laboratories doing tissue and organ transplantation, and labora-

tories involved with cancer immunology. It deals exclusively with the applications of immunology to the detection and analysis of a wide variety of diseases, including, but not limited to, those induced by microorganisms. The clinical interpretations of each procedure are detailed, and pitfalls and problems in performing the various analyses are discussed.

The contents, by section, are:

Tests for humoral components of the immunological response Tests for cellular components of the immunological response Immunoassays Bacterial, mycotic, and parasitic immunology Viral, rickettsial, and chlamydial immunology Immunohematology Laboratory examination of patients with allergic and immunodeficiency diseases Auto-immune diseases Tumor immunology Transplantation immunology Licensure and certification programs in clinical immunology laboratories.

Publication date: 16 August 1976. 932 pages, fully illustrated.

Available in two bindings:

Cloth, at \$20.00 (ISBN: 0-914826-09-3) and durable, plastic-coated, flexible binding, ideal for bench or classroom use, at \$16.00 (ISBN: 0-914826-10-7).

(Note: Members of ASM may purchase this book at the special member discount price of \$12.00 cloth, \$10.00 flexible. Member purchases are for personal use only. Payment *must* accompany member orders.)
