

# INFECTION AND IMMUNITY

Volume 55

November 1987

No. 11

## BACTERIAL INFECTIONS AND IMMUNITY

- The Low-Molecular-Mass, Cysteine-Rich Outer Membrane Protein of *Chlamydia trachomatis* Possesses Both Biovar- and Species-Specific Epitopes.** You-Xun Zhang, Nancy G. Watkins, Scott Stewart, and Harlan D. Caldwell..... 2570-2573
- Genetic and Phenotypic Diversity among Ampicillin-Resistant, Non- $\beta$ -Lactamase-Producing, Nontypeable *Haemophilus influenzae* Isolates.** Paul M. Mendelman, Donald O. Chaffin, James M. Musser, Ronald De Groot, Debra A. Serfass, and Robert K. Selander ..... 2585-2589
- Protection of Infant Rats from *Haemophilus influenzae* Type b Infection by Antiserum to Purified Outer Membrane Protein a.** Marilyn R. Loeb ..... 2612-2618
- Pulmonary Clearance of *Mycoplasma pulmonis* in C57BL/6N and C3H/HeN Mice.** Robert F. Parker, Jerry K. Davis, Donna K. Blalock, Randall B. Thorp, Jerry W. Simecka, and Gail H. Cassell..... 2631-2635
- Effect of Vaccination on Feline *Chlamydia psittaci* Infection.** Josephine M. Wills, Timothy J. Gruffydd-Jones, Shirley J. Richmond, Rosalind M. Gaskell, and F. John Bourne ..... 2653-2657
- Contribution of Capsular Polysaccharide and Surface Properties to Virulence of *Escherichia coli* K1.** Philippa M. Allen, Ian Roberts, Graeme J. Boulnois, Jon R. Saunders, and C. Anthony Hart ..... 2662-2668
- Role of Anaerobic Flora in the Translocation of Aerobic and Facultatively Anaerobic Intestinal Bacteria.** Carol L. Wells, Michael A. Maddaus, Christopher M. Reynolds, Robert P. Jechorek, and Richard L. Simmons ..... 2689-2694
- Influence of Growth Temperature on Virulence of *Legionella pneumophila*.** Paul H. Edelstein, Karen B. Beer, and Elaine D. DeBoynton ..... 2701-2705
- Serological Relationships between *Escherichia coli* and *Salmonella* Smooth- and Rough-Mutant Lipopolysaccharides as Revealed by Enzyme-Linked Immunosorbent Assay for Human Immunoglobulin G Antiendotoxin Antibodies.** G. R. Barclay and B. B. Scott ..... 2706-2714
- Protective Effect of Human Granulocyte Colony-Stimulating Factor on Microbial Infection in Neutropenic Mice.** Masahiko Matsumoto, Shuzo Matsubara, Takashi Matsuno, Masahiko Tamura, Kunihiko Hattori, Hitoshi Nomura, Masayoshi Ono, and Takeshi Yokota ..... 2715-2720
- Role of Lipopolysaccharide and Complement in Susceptibility of *Klebsiella pneumoniae* to Nonimmune Serum.** Blanca Ciurana and Juan M. Tomás ..... 2741-2746
- Intrapulmonary Growth of *Staphylococcus aureus* in Rats during Induced Atelectasis.** David Frederick and Edward L. Pesanti..... 2747-2753
- Establishment of Gastric *Campylobacter pylori* Infection in the Neonatal Gnotobiotic Piglet.** Steven Krakowka, Donna R. Morgan, William G. Kraft, and Robert D. Leunk ..... 2789-2796
- Introduction of *Shigella flexneri* 2a Type and Group Antigen Genes into Oral Typhoid Vaccine Strain *Salmonella typhi* Ty21a.** L. S. Baron, D. J. Kopecko, S. B. Formal, R. Seid, P. Guerry, and C. Powell ..... 2797-2801
- Expression of *Campylobacter jejuni* Invasiveness in Cell Cultures Coinfected with Other Bacteria.** Geir Bukholm and Georg Kapperud..... 2816-2821

Continued on following page

|  |           |
|--|-----------|
| <b>In Vitro Model of Penetration and Intracellular Growth of <i>Listeria monocytogenes</i> in the Human Enterocyte-Like Cell Line Caco-2.</b> Jean-Louis Gaillard, Patrick Berche, Joëlle Mounier, Stéphane Richard, and Philippe Sansonetti ..... | 2822–2829 |
| <b>Effect of Complement Depletion on Anticapsular-Antibody-Mediated Immunity to Experimental Infection with <i>Haemophilus influenzae</i> Type b.</b> John R. Schreiber, Christopher J. Basker, and George R. Siber .....                          | 2830–2833 |
| <b>Ability of Intestinal <i>Escherichia coli</i> to Survive within Mesenteric Lymph Nodes.</b> Carol L. Wells, Michael A. Maddaus, Robert P. Jechorek, and Richard L. Simmons .....  | 2834–2837 |
| <b>Protein Variability among Strains of <i>Mycoplasma pulmonis</i>.</b> H. L. Watson, M. K. Davidson, N. R. Cox, J. K. Davis, K. Dybvig, and G. H. Cassell .....   | 2838–2840 |
| <b>Colonial Dissociation and Susceptibility to Phagocytosis of <i>Pseudomonas aeruginosa</i> Grown in a Chamber Implant Model in Mice.</b> Niamh M. Kelly, Janet L. Battershill, Susan Kuo, John P. Arbuthnott, and Robert E. W. Hancock .....     | 2841–2843 |
| <b>Expression of a Cloned Lipopolysaccharide Antigen from <i>Neisseria gonorrhoeae</i> on the Surface of <i>Escherichia coli</i> K-12.</b> Deborah A. Palermo, Timothy M. Evans, and Virginia L. Clark .....                                       | 2844–2849 |
| <b>Characterization of a Native Polysaccharide Hapten from <i>Brucella melitensis</i>.</b> Edgardo Moreno, Hubert Mayer, and Ignacio Moriyon .....   | 2850–2853 |
| <b>Production of Monoclonal Antibodies against Serotype Strains of <i>Pseudomonas aeruginosa</i>.</b> Joseph S. Lam, Leslie A. MacDonald, and Michele Y. C. Lam .....  | 2854–2856 |
| <b>A Species-Specific DNA Probe for the Detection of <i>Mycoplasma gallisepticum</i>.</b> Miklos Santha, Kornel Burg, Istvan Rasko, and Laszlo Stipkovits .....  | 2857–2859 |
| <b>Most <i>Mycobacterium leprae</i> Carbohydrate-Reactive Monoclonal Antibodies Are Directed to Lipoarabinomannan.</b> Harvey Gaylord, Patrick J. Brennan, Douglas B. Young, and Thomas M. Buchanan .....  | 2860–2863 |

## FUNGAL AND PARASITIC INFECTIONS AND IMMUNITY

|   |           |
|---|-----------|
| <b>Antigenic Identity of Biologically Active Antigens in Coccidioidin and Spherulin.</b> Rebecca A. Cox and Lorene A. Britt .....   | 2590–2596 |
| <b>Demonstration of Antigenic Polymorphism in <i>Plasmodium vivax</i> Malaria with a Panel of 30 Monoclonal Antibodies.</b> Preethi V. Udagama, Peter H. David, J. S. M. Peiris, Y. G. Ariyaratne, K. L. R. L. Perera, and Kamini N. Mendis .....     | 2604–2611 |
| <b>Establishment and Characterization of an Antigen-Specific T-Cell Line from Liver Granulomas of <i>Schistosoma mansoni</i>-Infected Mice.</b> Samia Ragheb, Ranjit C. Mathew, and Dov L. Boros .....  | 2625–2630 |
| <b>Enhanced Epitopic Response to a Synthetic Human Malarial Peptide by Preimmunization with Tetanus Toxoid Carrier.</b> L. D. Lise, D. Mazie, M. Jolivet, F. Audibert, L. Chedid, and D. Schlesinger .....  | 2658–2661 |
| <b>Characterization of Cyclophosphamide-Rat Model of Cryptosporidiosis.</b> Jerold E. Rehg, Michael L. Hancock, and Douglas B. Woodmansee .....   | 2669–2674 |
| <b>Cytoadherence of <i>Plasmodium falciparum</i>-Infected Erythrocytes to Human Melanoma Cell Lines Correlates with Surface OKM5 Antigen.</b> Lindsey J. Panton, James H. Leech, Louis H. Miller, and Russell J. Howard .....                         | 2754–2758 |
| <b>Cytosolic Calcium Changes in Individual Neutrophils Stimulated by Opsonized and Unopsonized <i>Candida albicans</i> Hyphae.</b> Stuart M. Levitz, Caron A. Lyman, Teizo Murata, James A. Sullivan, Gerald L. Mandell, and Richard D. Diamond ..... | 2783–2788 |

Continued on following page

- Metacyclogenesis Is a Major Determinant of *Leishmania* Promastigote Virulence and Attenuation.** Rosangela da Silva and David L. Sacks ..... 2802–2806
- Proteinase Production by the Parasitic Cycle of the Pathogenic Fungus *Coccidioides immitis*.** Steven Resnick, Demosthenes Pappagianis, and James H. McKerrow ..... 2807–2815

## ORAL MICROBIOLOGY AND IMMUNITY

- Oral Immunization of Humans with *Streptococcus sobrinus* Glucosyltransferase.** Daniel J. Smith and Martin A. Taubman ..... 2562–2569
- Fluoride Inhibition of Proton-Translocating ATPases of Oral Bacteria.** Scott V. W. Sutton, Gary R. Bender, and Robert E. Marquis ..... 2597–2603
- Intergeneric Bacterial Coaggregations Involving Mutans Streptococci and Oral Actinomyces.** Paula J. Crowley, W. Fischlschweiger, S. E. Coleman, and A. S. Bleiweis ..... 2695–2700
- Attachment of Oral Bacteria to a Basement-Membrane-Like Matrix and to Purified Matrix Proteins.** J. R. Winkler, S. R. John, R. H. Kramer, C. I. Hoover, and P. A. Murray ..... 2721–2726
- Isolation and Characterization of Monoclonal Antibodies Specific for Antigen P1, a Major Surface Protein of Mutans Streptococci.** Gregg Y. Ayakawa, Lee W. Boushell, Paula J. Crowley, Gregory W. Erdos, William P. McArthur, and A. S. Bleiweis ..... 2759–2767

## PATHOGENESIS

- Activities of Complete and Truncated Forms of Pertussis Toxin Subunits S1 and S2 Synthesized by *Escherichia coli*.** Camille Locht, Witold Cieplak, Kevin S. Marchitto, Hiroko Sato, and Jerry M. Keith ..... 2546–2553
- Role of Cell-Bound Hemolysin as a Pathogenicity Factor for *Serratia* Infections.** W. König, Y. Faltin, J. Scheffer, H. Schöffler, and V. Braun ..... 2554–2561
- Restoration of Normal Febrile Response to Endotoxin in Pyrogen-Tolerant Rabbits by Injection with Human Beta Interferon.** Hajime Kawasaki, Masami Moriyama, Yusaku Ohtani, Mariko Naitoh, Hideo Nariuchi, and Atsushi Tanaka ..... 2574–2578
- Degradation of Gonococcal Peptidoglycan by Granule Extract from Human Neutrophils: Demonstration of *N*-Acetylglucosaminidase Activity That Utilizes Peptidoglycan Substrates.** Robert Striker, Mark E. Kline, Richard A. Haak, Richard F. Rest, and Raoul S. Rosenthal ..... 2579–2584
- Plasmid-Associated Resistance of *Salmonella typhimurium* to Complement Activated by the Classical Pathway.** James L. VandenBosch, Douglas K. Rabert, and Garth W. Jones ..... 2645–2652
- Cloning of Genes for Production of *Escherichia coli* Shiga-Like Toxin Type II.** John W. Newland, Nancy A. Strockbine, and Roger J. Neill ..... 2675–2680
- Entry of *Shigella flexneri* into HeLa Cells: Evidence for Directed Phagocytosis Involving Actin Polymerization and Myosin Accumulation.** Philippe Clerc and Philippe J. Sansonetti ..... 2681–2688
- Molecular Cloning and Expression of *Neisseria meningitidis* Class 1 Outer Membrane Protein in *Escherichia coli* K-12.** Ann K. Barlow, John E. Heckels, and Ian N. Clarke ..... 2734–2740
- Transposon Tn5 Mutagenesis of *Brucella abortus*.** Laurie D. Smith and Fred Heffron ..... 2774–2776
- Gamma Interferon Reverses Inhibition of Leukocyte Bactericidal Activity by 25-Kilodalton Fraction from *Mycobacterium tuberculosis*.** Ahmed A. Wadee, Jonathan D. Cohen, and Arthur R. Rabson ..... 2777–2782

IMMUNE MECHANISMS

|   |           |
|---|-----------|
| <b>Immunization of Mice against Tetanus with Fragments of Tetanus Toxin Synthesized in <i>Escherichia coli</i>.</b> Neil F. Fairweather, Valerie A. Lyness, and Duncan J. Maskell .....   | 2541-2545 |
| <b>Enhancement of Non-<i>Candida</i> Antibody Responses by <i>Candida albicans</i> Cell Wall Glycoprotein.</b> Judith E. Domer, Karen L. Elkins, David L. Ennist, Philip W. Stashak, Ronald E. Garner, and Phillip J. Baker .....   | 2619-2624 |
| <b>The Immunogenicity and Antigenicity of Lipid A Are Influenced by Its Physicochemical State and Environment.</b> Lore Brade, Klaus Brandenburg, Hella-Monika Kuhn, Shoichi Kusumoto, Ingolf Macher, Ernst T. Rietschel, and Helmut Brade .....  | 2636-2644 |
| <b>The Antichlamydial, Antiviral, and Antiproliferative Activities of Human Gamma Interferon Are Dependent on the Integrity of the C Terminus of the Interferon Molecule.</b> Luis M. de la Maza, Ellena M. Peterson, Louis E. Burton, Patrick W. Gray, Ernst Rinderknecht, and Christine W. Czarniecki | 2727-2733 |
| <b>Genetic Control of Immune Response to Staphylococcal Exfoliative Toxin A in Mice.</b> Katsuhiko Machida, Susumu Sakurai, Isamu Kondo, and Satio Ikawa .....  | 2768-2773 |

ERRATUM

|   |      |
|---|------|
| <b>Mechanisms of Platelet Aggregation by Viridans Group Streptococci.</b> Paul M. Sullam, Frank H. Valone, and John Mills ..... | 2864 |
|---|------|

Date of Issue: 20 October 1987
