CUMITECHS

Cumulative Techniques and Procedures in Clinical Microbiology

Editorial Board: Steven C. Specter (Chairman), Carl Abramson, Ellen Jo Baron, Mary J. R. Gilchrist, William J. Martone, John E. McGowan, Jr., Frederick S. Nolte, Arne C. Rodloff, James W. Smith, John A. Smith, Thomas J. Tinghitella, and Alice S. Weissfeld

Cumitechs (*Cumulative Techniques and Procedures in Clinical Microbiology*) are consensus reports in booklet form on topics of special interest to the clinical microbiology laboratory. They represent expert opinion on optimal procedures for a variety of clinical microbiology techniques. Easily stored in the special binder available from ASM, *Cumitechs* are authoritative, brief, practical—and eminently useful in the clinical laboratory setting. The following *Cumitechs* are currently available:

- | | |
|---|---|
| 26. Laboratory Diagnosis of Viral Infections Producing Enteritis | 14. Laboratory Diagnosis of Central Nervous System Infections |
| 25. Current Concepts and Approaches to Antimicrobial Agent Susceptibility Testing | 11. Practical Methods for Culture and Identification of Fungi in the Clinical Microbiology Laboratory |
| 24. Rapid Detection of Viruses by Immunofluorescence | 10. Laboratory Diagnosis of Upper Respiratory Tract Infections |
| 23. Infections of the Skin and Subcutaneous Tissues | 9. Collection and Processing of Bacteriological Specimens |
| 22. Immunoserology of Staphylococcal Disease | 8. Detection of Microbial Antigens by Counterimmunoelectrophoresis |
| 21. Laboratory Diagnosis of Viral Respiratory Disease | 7A. Laboratory Diagnosis of Lower Respiratory Tract Infections |
| 20. Therapeutic Drug Monitoring: Antimicrobial Agents | 6A. New Developments in Antimicrobial Agent Susceptibility Testing: a Practical Guide |
| 19. Laboratory Diagnosis of Chlamydial and Mycoplasmal Infections | 4. Laboratory Diagnosis of Gonorrhea |
| 18. Laboratory Diagnosis of Hepatitis Viruses | 3A. Quality Control and Quality Assurance Practices in Clinical Microbiology |
| 16. Laboratory Diagnosis of the Mycobacterioses | 2A. Laboratory Diagnosis of Urinary Tract Infections |
| 15. Laboratory Diagnosis of Viral Infections | 1A. Blood Cultures II |

ORDERING INFORMATION:

Subscriptions: Approximately four *Cumitechs* are published per year, on an irregular schedule. Subscribers are mailed all new *Cumitechs* and are invoiced at \$6.00 per issue.

Individual orders: Member, \$6.00 each; nonmember, \$7.00 each. Limit of three of one title at the member rate.

Quantity discounts: 11-50 of the same *Cumitech*, \$5.00 each; 51-250, \$3.50; 251-1,000, \$2.50; 1,001 and over, \$2.00.

Also available: Three-ring vinyl binder for ASM *Cumitechs*, \$9.00.

PAYMENT TERMS: All orders except subscriptions must be prepaid in U.S. dollars drawn on a U.S. bank or charged to MasterCard, Visa, American Express, or Eurocard. Subscribers are invoiced after publication of each issue. Charge card orders can also be placed by phone (202-737-3600) or fax (202-737-0368). Prices are subject to change without notice. ASM pays all postage and handling costs for *Cumitechs*.

Send me the *Cumitechs* I have listed below.

MICROBIAL DETERMINANTS OF VIRULENCE AND HOST RESPONSE

Editor: Elia M. Ayoub

Coeditor: Gail H. Cassell

Associate Editors: William C. Branche, Jr., and Timothy J. Henry

THE PROLIFERATION of information on the molecular microbiology of factors involved in microbial virulence prompted this comprehensive new publication. Essentially a survey and evaluation of the current status of research in the related fields of bacteriology, mycology, immunology, and host-parasite relationships, the book offers readers a useful summary of recent advances. Based on a workshop held under the auspices of the Bacteriology and Mycology Study Section of the Division of Research Grants and the National Institute of Allergy and Infectious Diseases, the book contains the following sections and chapters:

I. Bacterial Factors

1. Regulation of Post-Exponential-Phase Exoprotein Synthesis in *Staphylococcus aureus* (Novick et al.); 2. Streptococcal Immunoglobulin-Binding Proteins (Boyle et al.); 3. Noncapsular Surface Antigens and Their Association with Virulence of *Haemophilus influenzae* Type b (Hansen); 4. Reappraisal of the Chemistry of Mycobacterial Cell Walls, with a View to Understanding the Roles of Individual Entities in Disease Processes (Brennan et al.); 5. Regulation of the Immune Response to *Mycobacterium tuberculosis* (Ellner et al.); 6. Role of Major Histocompatibility Complex (MHC) and Non-MHC Genes in Host Resistance and Susceptibility to Mycobacteria (Buschman et al.); 7. Role of the Capsular Polysaccharide of Type III Group B Streptococci in Virulence (Kasper et al.).

II. Fungal Factors

8. Immunobiology of *Histoplasma capsulatum*-Reactive T Cells (Deepe); 9. Gamma Interferon and Experimental Murine Histoplasmosis (Wu-Hsieh and Howard); 10. Macrophage Oxidation of L-Arginine Is Linked to Fungistatic Capability (Granger et al.); 11. *Candida albicans* Acid Proteinase: a Role in Virulence (Ray and Payne); 12. Adherence of *Candida albicans* to Mammalian Cells (Edwards and Mayer).

III. Bacterial Factors in Sexually Transmitted Diseases

13. Pilus and Outer Membrane Protein II Variation in *Neisseria gonorrhoeae* (Swanson); 14. Outer Membrane Proteins of *Neisseria gonorrhoeae* (Elkins and Sparling); 15. Cellular and Molecular Pathogenesis of Syphilis (Blanco et al.); 16. Chlamydial 57-Kilodalton Stress Response Protein Is a Deleterious Immune Target (Morrison).

IV. Biologic Factors

17. The Neutrophil NADPH Oxidase System: Molecular Aspects (Clark); 18. Lipopolysaccharide Signal Modification by Acyloxyacyl Hydrolase, a Leukocyte Enzyme (Munford et al.); 19. Regulation of Macrophage-Mediated Antigen Presentation by Microbial Products (Ziegler); 20. Complement in Host Defense against Bacterial Infections (Frank).

V. Antibiotic Resistance

21. Antibiotic Resistance in *Haemophilus influenzae* (Smith); 22. New and Complex Strategies of β -Lactam Antibiotic Resistance in Pneumococci and Staphylococci (Tomasz); 23. Evolving β -Lactamases (Jacoby); 24. Multiple Antibiotic Resistance: Gene Selection, Function, and Spread (Levy).

ORDERING INFORMATION

June 1990, hardcover (ISBN 1-55581-026-8), 404 pages, illustrated, index. Member: \$41.00; Nonmember: \$52.00. When ordering, specify the order number below. Use the order form below or phone (202) 737-3600 to place a charge card order. To send a charge order by FAX, use (202) 737-0368. Notes: All orders must be prepaid in U.S. dollars drawn on a U.S. bank or charged to MasterCard, VISA, or American Express. Members are limited to three copies at the member price. Institutional purchase orders should include the order number.

Please send me ____ copy(ies) of *Microbial Determinants of Virulence and Host Response* at \$41.00 (Member) \$52.00 (Nonmember) each (order number IAI 11/91 -026-8). Ship to:

ASM Publication Sales/American Society for Microbiology/1325 Massachusetts Ave., N.W., Washington, DC 20005-4171

1991 EDITION

Ever had the tables turned on you? If the answer is yes, you need the new

ASM Style Manual *for Journals and Books*

This newly revised and updated edition will assist every author who submits papers to ASM. Prepared by ASM's professional editorial staff specifically for the ASM journals and books, the manual incorporates all of the information you need to ensure stylistically and grammatically correct manuscripts.

The new edition includes two new chapters, "Proofreading" and "Books." In addition, it features in-depth instructions for assembling and editing the new References section, which recently replaced the Literature Cited section in ASM journal articles.

CONTENTS

- 1. Preparation of Manuscripts
- 2. Numbers and Measurements
- 3. Scientific Nomenclature
- 4. English
- 5. Sources for Materials
- 6. Abbreviations
- 7. References
- 8. Illustrations
- 9. Tables
- 10. Proofreading
- 11. Books
- 12. Words, Abbreviations, and Designations
- Appendix A. Journal Specifications
- Appendix B. Journal Production Cycle
- Bibliography
- Index
