MICROBIOLOGY

Infection and
Immunity®

CONTENTS • DECEMBER 2018 • VOLUME 86, NO. 12

COVER IMAGE

Cover photograph: Transmission electron micrograph of *Staphylococcus aureus* bacteria in the canaliculus and osteocyte lacunar space of a patient with a diabetic foot infection. An immunoassay to detect and track such infections is presented by Oh et al. in this issue. The patient from whom this sample was prepared was one of the cohort of infected patients described. (See related article at e00629-18.) (Courtesy of Karen L. de Mesy Bentley, University of Rochester Medical Center, Rochester, NY; reprinted with permission.)

EDITORIAL

- Acknowledgment of Ad Hoc Reviewers** e00752-18
Andreas J. Bäuml

SPOTLIGHT

- Articles of Significant Interest in This Issue** e00777-18

MOLECULAR PATHOGENESIS

- Cross Talk between MarR-Like Transcription Factors Coordinates the Regulation of Motility in Uropathogenic *Escherichia coli*** e00338-18
